PEEK Screws

PEEK Screws is the ultimate solution for lightweight whoop, taking more grams off the build. PEEK screws only weigh 0.10 grams/12pcs, it can save up to 0.46 grams for a build that is using metal screws, while still being stronger and more durable than nylon screws. With more heat resistance, anti-friction, anti-shock, and anti-fatigue properties, the PEEK Screws are both reliable and durable. They are perfect for building 65mm/75mm size drones, including the lightweight Meteor series drone.

Note: when tightening the screw, it is important to pay attention to the tightening force to prevent the nut from breaking.
