Opis produktu

SYK DONGLE + KABLE RED WHITE BLUE

Introducing the Syk Dongle – a smart solution for FPV enthusiasts seeking fast and easy power connection to their goggles and day to day charging capabilities. The Syk Dongle is a XT60 to USB-C adapter designed for next-generation HD goggles and tech gadgets. When paired with the included braided USB-C cable, the dongle outputs a stablized 8.4V, capable of powering any modern FPV goggle.

Thanks to its added clip, there is no more flopping around, allowing you to focus on your FPV experience without distractions.

One of the standout features of the Syk Dongle is its USB-C outlet, which supports QC3.0, PD and more! This means you can now make the most of your leftover lipos by utilizing them to charge your other tech gadgets. Say goodbye to wasted energy and embrace the convenience of repurposing your lipos to power up your devices, all while enjoying fast charging speeds.
