Producent	**DIATONE**

Opis produktu

Description

FRAME DIAGRAM

Specification:

Diatone has introd
uced a number of changes to the ne
wly optimized Roma F5 V2,
including the stiffness and strengt
h of the frame arms
. We've also strengthened the metal parts at the front of the frame and upgrade the alloy material fr
*om **7075 to titanium steel**. For that extra high-end, tactile quality, we've treated the surface of the*
metal parts as well and cha
*nged the screws fixing the metal parts from **M2 size to M3**-sized specifications.*

For our digital HD fans, we haven't forgotten you! This time, we've; added mounts for the twin
DJI antennas.

Roma F5 V2's injection-molded protection parts not only add a dash of color with our new color optio
ns but also offer better protection for your gear. The GoPro mount angle can be adjusted for faster c
hanges on the fly. For the best flying experience, the V2 comes in a slammed configuration for stabili
ty.

Roma F5 V2 Frame Kit
