Opis produktu

NewBeeDrone gąbka Max Comfort do gogli DJI Goggles 2

Introducing the Goggles 2 Replacemente Sponge Foam Paddiing, a comfortable and highly elastic sponge designed specifically for DJI Goggles 2 users.

Our innovative design includes an increased height of the sponge on both sides, effectively eliminating the problem of side light leakage. The high compressibility of the sponge ensures the optimal distance between the lens and the eyes, resulting in clear images and text. The sponge's increased height at the bottom also provides ample space for the nose, distributing the weight of the goggles evenly across the face instead of the nose.

Additionally, the sponge's ergonomic shape conforms to the principles of artificial engineering, ensuring a comfortable and snug fit. Experience comfort and optimal functionality with the Goggles 2 sponge.
