Opis produktu

Walksnail Avatar Repeater

Signal Amplification and Extension

5.2G and 5.8G high-power transmission with high-gain directional antennas enhance the signal.

Improved Reliability

Built-in hardware filter – reduces the device's adjacent channel interference, helping to achieve more stable transmission.

Easy & Convenient Setup

Step 1Power on the ground unit, repeater, and air unitStep 2Press the pairing buttons on both the ground unit and the air unitStep 3After successful pairing, the indicator light turns greenStep 4Binding is completed, and the VRX displays the image.

Adjustable Power

Walksnail Avatar Repeaters provide greater range with power adjustments to meet different environmental needs.

Adaptability To Various Environments

Film and Media Production、Outdoor Travel Photography、Miracle Adventures.

Seamless Compatibility

Avatar Repeater is designed to seamlessly integrate with Walksnail and is compatible with Goggles X, Avatar VRX, and all Walksnail VTXs.

Unleash the full potential of FPV with the first HD digital video transmission repeater. Enhance signal strength, extend transmission range, and enjoy smoother, clearer video.

Specification	
System	Avatar HD system
Power input	9V-26V
Dimensions	119.5*72*18.6mm
Weight	145.9g(Antenna not included)
I/O Interface	USB ,4Pin 1.0mm Port
Transmission Resolution	1080p/100fps, 1080p/60fps, 720p/100fps,720p/60fps
Communication Frequency	5.15GHz-5.30GHz;5.50GHz-5.85GHz;
Transmitter Power(EIRP)	FCC:<30dBm; CE:<14dBm; SRRC:<20dBm; MIC:<25dBm
5.2G Antenna	Frequency range:5.15GHz-5.30GHz; Gain:7dBi(AVG) Polarization:LHCP
5.8G Antenna	Frequency range: 5.50GHz-6.00GHz Gain:7dBi(AVG) Polarization:LHCP

FAQs

1. Is there HDMI Out?

No, repeaters do not support HDMI output.

2. Does the Repeater have a DVR?

No, Repeaters do not have DVR functionality.

3. How far does the WalksnailAvatar Repeater radiate?

The extended distance added by the repeater exceeds 4 kilometers.

4. Are there any limitations when using the Walksnail Avatar Repeater?

The repeater does not support 50Mbps high bitrate, sharing mode, head tracking, or racing mode. Additionally, it must be used within legal frequency bands.

5. Is the Walksnail Avatar Repeater compatible with FPV goggles and drones from other brands?

Supports Avatar VRX, Avatar Goggles, Goggles X, and all Avatar air unit products.
