Akumulator Tattu R-Line 6.0 1000mAh 14.8V 160C xt30

Cena brutto	91,99 zł
Cena netto	74,79 zł
Dostępność	Dostępny
Czas wysyłki	1 - 3 dni
Kod producenta	TAA10004S16X3
Producent	Tattu

Opis produktu

Akumulator Tattu R-Line 6.0 1000mAh 14.8V 160C xt30

Tattu R-Line Version 6.0 — Key Features

1. Higher Energy Density, Safer Design

With a new lithium salt formula and semi-solid electrolyte, the battery reaches:

- **316Wh/L** volume energy density (+26%)
- **160Wh/kg** weight energy density (+17%)

Less liquid content provides better safety & longer lifespan

2. Stable Power with 3D Conductive Tech

- Built with conductive graphite, carbon nanotubes, and graphene
- Forms a 3D network for **efficient and stable high-current output**
- Power delivery remains stable during intense performance bursts

3. Faster Response with Nano Materials

- Nano-particles and porous electrode structure
- **Reduces internal resistance by 20%**
- Enables faster throttle response & stronger power bursts

4. Stronger Structure, Better Durability

- Improved internal structure enhances heat dissipation
- Withstands shocks & crashes
- Reliable for both freestyle and race scenarios

Dane techniczne

Pojemność	1000mAh
Napięcie	14.8V
Ilość cell	4S1P
Prąd rozładowania (ciągły)	160C
Typ konektora	XT30
Wymiary	~ 62x32x26mm
Waga	~ 100g
