Avatar GT2 2W KIT VTX + Kamera

Cena brutto	**969,99 zł**
Cena netto	**788,61 zł**
Dostępność	**Aktualnie niedostępny**
Czas wysyłki	**1 - 3 dni**
Kod producenta	**WN1303020G**
Producent	**Caddx FPV**

Opis produktu

Avatar GT2 2W KIT VTX + Kamera

More Powerful for Extended Range

Powered by a new integrated design, the GT2 delivers a superior digital video experience with unmatched performance and reliability

Adaptive Power
Dynamic 2W Max Output

New firmware, smarter transmission. With dynamic power adjustment, the system instantly optimizes output power based on flight environment and temperature, delivering a smoother and more reliable flight experience

Frequency Hopping
Fast, Stable, Smart

Supports both fixed channel and frequency hopping modes. When frequency hopping is active, it continuously scans and assesses channel quality during flight. Upon detecting interference, it switches to a clearer channel within milliseconds for seamless hopping, ensuring stable, clear and uninterrupted video transmission

Every Frame Pops, Every Move Flows

Flagship Sony II sensor inside. Handles bright sun and low light with ease clean footage day or night. Shines after dark, pulling in distant scenes with stunning clarity. Every flight, cinematic

Significantly Lower Power Consumption

30%+ lower power consumption for cooler operation and longer transmission, with stable performance throughout

Fan Control
Efficient Cooling System

The cooling system helps to regulate device temperature, preventing overheating and ensuring stable signal transmission

Head-Tracking Ready

Works with CaddxFPV GM Gimbals & Walksnail Avatar Goggles. Instant head movement response for a true cockpit feel. No soldering needed

Upgraded MMCX
Type-C
256GB Storage
Custom OSD
MMCX Antenna Connector
MMCX connector for rock-solid signal. Long high-gain antenna for long-range digital HD transmission

Type-C Port for Seamless Transfers
Plug into your computer, and it shows up as a drive. No disassembly, no card reader needed. Quick and easy access to your footage

Pop-up SD Card Slot, Simple and Easy to Use
Features a spring-loaded slot with no tools required. A gentle press with your finger ejects the card safely and smoothly. Supports up to 256G SD cards for effortless data transfer

Your FPV, Your Rules
Supports Canvas mode and Betaflight OSD. Custom data. Custom layout. Custom view

Versatile Performance for Any Conditions

Great for outdoor adventures, racing , RC hobby, and cinematic filming

SPECS

- Name Avatar GT2
- Communication Frequency 5.725-5.850 GHz
- Transmission Power (EIRP) FCC: ≤33dBm; CE: <14dBm; SRRC: <20dBm; MIC: <25dBm
- I/O Interface JST1.0*6(Power Cable); Micro Card Slot; Type-C(usb)
- Mounting Hole 25.5*25.5mm; 20*20mm
- Dimensions VTX: 34*36*23.5mm Camera: 19*19*24mm
