Opis produktu

This Beta75 Pro 2 frame is customized for <u>Beta75 Pro 2</u> whoop drone.

- Light enough: only weighs 5.5g.
- Battery slot is suitable for both 1S & 2S battery.

By default, with the help of foam adaptor, the battery slot is designed for 2pcs 300mAh Lipo HV 1S whoop style battery.

• Motor mounting holes fit multiple types of motors.

The motor mounting holes on the Beta75 Pro 2 frame are suitable for BETAFPV's 0802 / 0703 / 0603 brushless motors. Thus, the frame can be used on Pro2 Series drones and 1S Pro Series (65pro/75pro).

Specification

- Material: Clear plastic
- Diagonal motor to motor distance: 75mm
- Motor mounting hole: for 0802 12000KV motors
