### Opis produktu

#### Brain3D Bumpery do ramy Lumenier QAV-PRO Whoop 5" (Set of 8)

These **3D Printed Bumpers** are for the **Lumenier QAV-PRO Whoop 5"** and provide nice protection as your first point of contact in the event of a crash or bumping into things. The QAV-PRO 5" Whoop is an amazing cinematic style frame! It is quite a gift to build a beautiful rig like this so it is important to keep it protected. These are a great option as an alternative to foam bumpers, and they also make your frame look even cooler!
