Zawartość zestawu BNF:
dron,
2 akumulatory,
ładowarka,
komplet zapasowych śmigieł.

Zawartość zestawu RTF:
dron,
gogle,
aparatura,
2 akumulatory,
ładowarka,
komplet zapasowych śmigieł.

IMPROVEMENT

Embark on the future of outdoor FPV quadcopters with the all-new Tinyhawk III Plus Freestyle, tailor-made for those ready to embrace the excitement of outdoor drone flights.

INCREDIBLE DURABILITY

Crafted from an upgraded aerospace-grade 3k woven carbon fiber blend, durability reaches new heights. This advanced blend ensures the Tinyhawk III Plus Freestyle can confidently endure high-impact situations while maintaining its lightweight agility. The frame proudly displays an eye-catching designer pattern, setting it apart with its unique charm.

IMPROVED VTX

With increased transmission power, the Tinyhawk III Plus Freestyle punches through interference and obstacles with ease. You'll experience a more robust signal, allowing you to fly with confidence even in challenging environments. Our engineers have fine-tuned the analog system to optimize signal strength while maintaining stability, so you can focus on your flight without worrying about signal dropouts.

HD FPV

The Tinyhawk III Plus Freestyle HD version features the groundbreaking HD Zero video transmission system, setting a new standard for clarity and precision. This system ensures that every detail of your flight is captured in stunning high-definition quality. Say goodbye to low quality feeds and immerse yourself in the crystal-clear visuals that HD Zero delivers.

HD GOGGLES

Alongside the Tinyhawk III Plus Freestyle HD version, we proudly unveil the reimagined Transporter 2 HD FPV Goggle. It features a detachable screen that can be paired with our brand-new E8 transmitter, providing a fully customizable flying experience tailored to your preferences. Equipped with a powerful receiver, the Transporter 2 HD ensures a pristine high-definition video feed, delivering the clearest visuals possible. And with the built-in DVR, you can capture your FPV flights in stunning HD, review them, or share your exhilarating flight footage with others.

ELRS CONTROL

Taking control to the next level, the E8 transmitter, featuring high-quality gimbals, guarantees unmatched precision and smoothness, raising the bar for drone control. The E8 Transmitter is the perfect companion for the Tinyhawk III Plus Freestyle, offering an exceptional flying experience with its cutting-edge ELRS (ExpressLRS) transmitter protocol. ELRS is renowned for its low latency and rock-solid signal reliability, ensuring that your commands are executed with lightning-fast responsiveness.

MORE POWER

Engineered for precision and extended airtime, the Tinyhawk III Plus Freestyle features high-performance 12025 7000KV motors, meticulously calibrated to optimize RPM and ensure maximum efficiency. Coupled with the AVAN Rush 2.5-inch propellers, it delivers exceptional grip and thrust, offering a versatile and exhilarating flying experience.

GET STARTED

In the realm of outdoor drones, the Tinyhawk III Plus Freestyle stands as a beacon of performance and FPV immersion, unrivaled in its class.
