Opis produktu

Dron GEPRC Vapor-D5 HD o4 Pro FPV Drone PNP

Summary

The GEPRC team has redesigned the Vapor series for optimal compatibility with the DJI O4 Air Unit Pro VTX.

New aluminum lens components and shock-absorbing silicone reduce vibrations, while the sharp new side panels give it a bold, mech-inspired look. The DJI O4 Air Unit Pro’s larger CMOS sensor enhances image detail and sensitivity, and the GEPRC-tuned PID settings ensure a smooth and immersive flight experience.

Available in two models, Wide X and DC, to suit different flight needs.

Feature

1. DJI O4 Air Unit Pro features a powerful CMOS sensor for improved image clarity and enhanced light sensitivity.
2. CNC aluminum lens housing for a durable, bold design.
3. GEPRC SPEEDX2 E-series motors for smooth, powerful performance.
4. Front lip design provides extra lens protection for confident flying.
5. Wider 5mm carbon fiber arms for increased durability and a sleek build.
