Opis produktu

Nazgul5 HD is a 5" size BNF (Bind-and-Fly) quadcopter with Caddx Vista Digital HD System on it. We sticked the lighter Caddx Vista on one of our new updated XL5 V5 FPV frames. Pre-tuned and setup, everything you need is just bind-and-fly! Loads of power and smooth flights guaranteed using our popular XING 2207 with LED light motors with long-lasting NSK bearings. Got a hard hit and snapped an arm? Don't worry, get some spares with your order and easy-swap out in field. Wanna strap your GoPro on that beast as well? Checkout our collection of high quality TPU prints for your cam!
