Opis produktu

ESC Spedix GS40F 4in1 Mini

GS40F 4IN1 MINI is an extremely reliable 20*20mm mount 6S 4IN1 ESC. Limited by the smaller size of 20*20mm ESC, Engineers have always been using 3mm mini MOSFET used on 20*20mm ESCs. This compromise made these ESCs vulnerable to the ever-growing demand of heat sinking capabilities and current/voltage tolerance of the FPV market. With our innovative design, by separating the control board and the power board, we successfully implemented full-size 5*6mm MOSFET onto this 20*20mm ESC. By combining reliable hardware with the fastest GD32F3 MCU in the market, We are able to present you with a high performance mini 20*20mm ESC of extreme reliability and responsiveness.

Specyfikacja:

Wymiary 41x31,5x10mm
Rozstaw otworów montażowych 20mm
Masa : 14g
Zasilanie : 3s do 6s Lipo
