Opis produktu

Emax Tinyhawk 5.8G 48CH Diversity FPV Goggles 4.3 Inches 480*320 Video Headset With Dual Antennas 4.2V 1800mAh Battery For RC Drone

Introducing the EMAX Transporter, a Universal First-Person-View (FPV) Box Goggle which will allow you to experience life in the skies with any compatible FPV drone. With a wide Field-Of-View (FOV), an immersive experience will allow any pilot to fly with ease in any demanding situation.

Utilizing an Adjustable Focusing Diopter, adjusting the slider will enable pilots to customize the Field-of-View for personalized immersion and comfort. With a built in fan, fogging inside the goggles will no longer be an issue for pilots in any weather.

Custom-fit to sit on a large variety of faces, any pilot will be able to feel comfortable when in the air. Featuring the capability to run two antennas in a diversity configuration, capturing a strong signal from your drone will be easier than ever in any situation.

The EMAX Transporter is compatible with all EMAX FPV Drones as the simple solution to experience flight.
