Opis produktu

Kontroler Lotu Matek F722 HD

Kontoler lotu F722 marki Matek to multifunkcyjny kontroler lotu w wersji HD umożliwiającej podłączenie cyfrowego systemu wizji DJI Air Unit lub Caddx Vista. Kontroler posiada wydajny procesor F7 o taktowaniu 216 MHz, który obsłuży większość dostępnych urządzeń gotowych do podłączenia przy jednoczesnym zachowaniu wysokiej kultury pracy. W kontrolerze Mateka zastosowano wysokiej jakości żyroskop 6 osiowy MPU6000, który doskonale pozycjonuje pozycję modelu w przestrzeni. Dzięki wbudowanemu barometrowi BMP280, model ma możliwość utrzymywania zadanej wysokości. W celu wykonywania lotów autonomicznych użytkownik ma możliwość zainstalowania modułu GPS. Zalecanym oprogramowaniem dla tego kontrolera jest oprogramowanie Betaflight lub Inav. W przypadku montażu w samolocie zalecane jest PDB F722-PX-W.
