## Opis produktu

**Ładowarka Vifly Whoopstor V3 1S BT2.0 PH2.0 USB-C**

**Storage Charger and Discharger**

VIFLY WhoopStor 3 is a combination of charger and discharger. It has 4 target voltages (3.8V/3.85V/4.2V/4.35V), set your target voltage like 3.8V (LiPo Storage Voltage), it will start the charging or discharging process automatically when the battery is lower or higher than 3.8V.

**Colorful LCD Screen, Intuitive Interface**

VIFLY WhoopStor 3 installs high quality LCD screen, the charging status is displayed clearly and the intuitive interface makes the operation very simple.

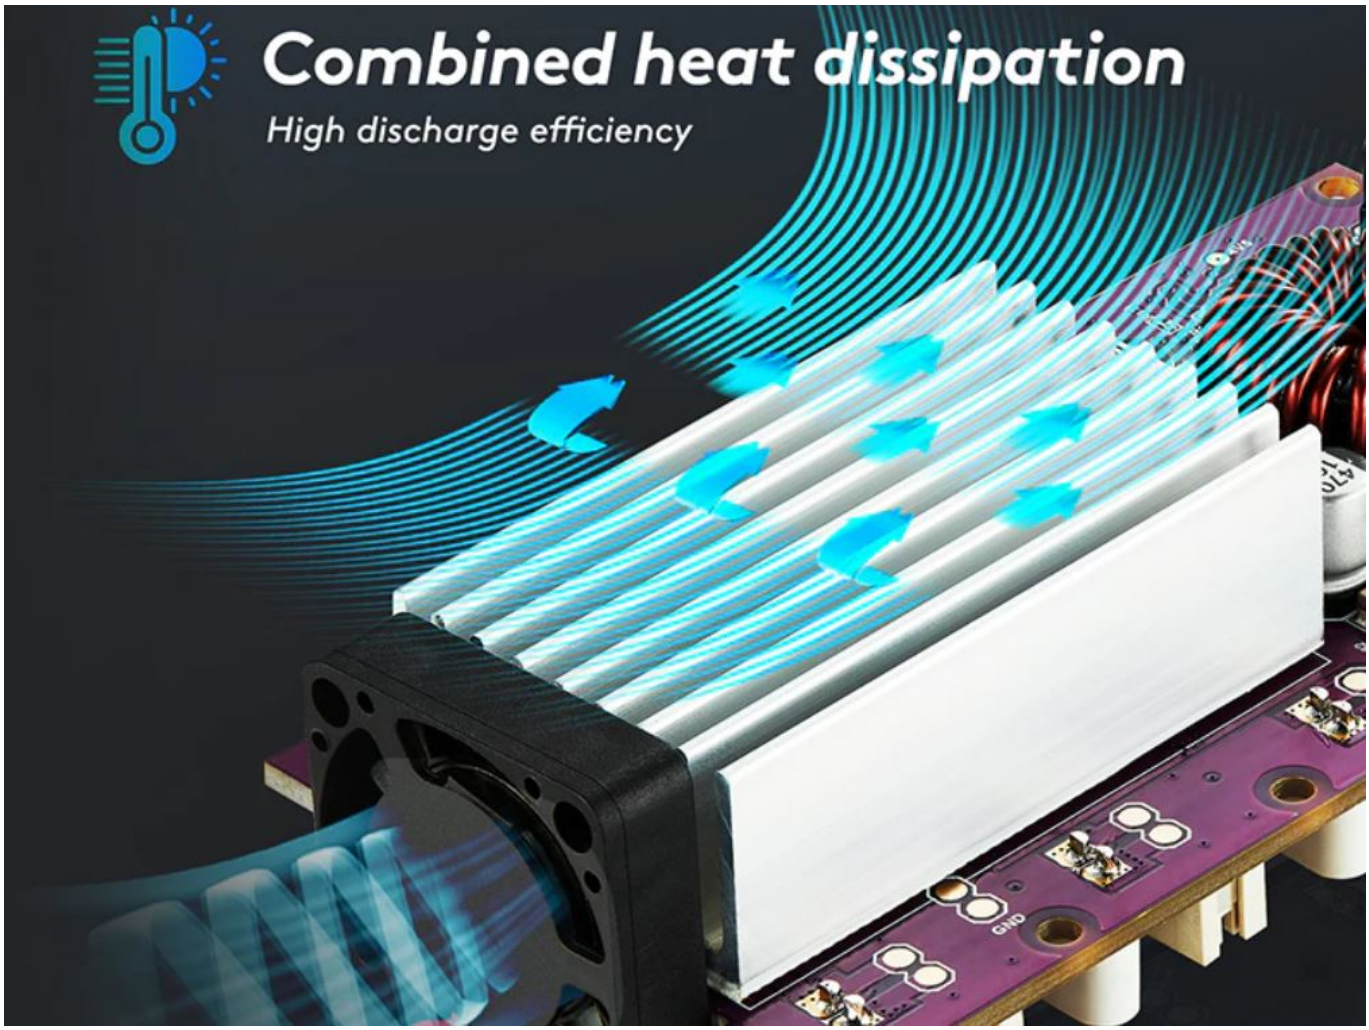

**Fast Charge Speed**

The charge current range is from 0.3A to 1.3A, you can choose different charge current for different size batteries, it is better to charge the battery with 2C rate.

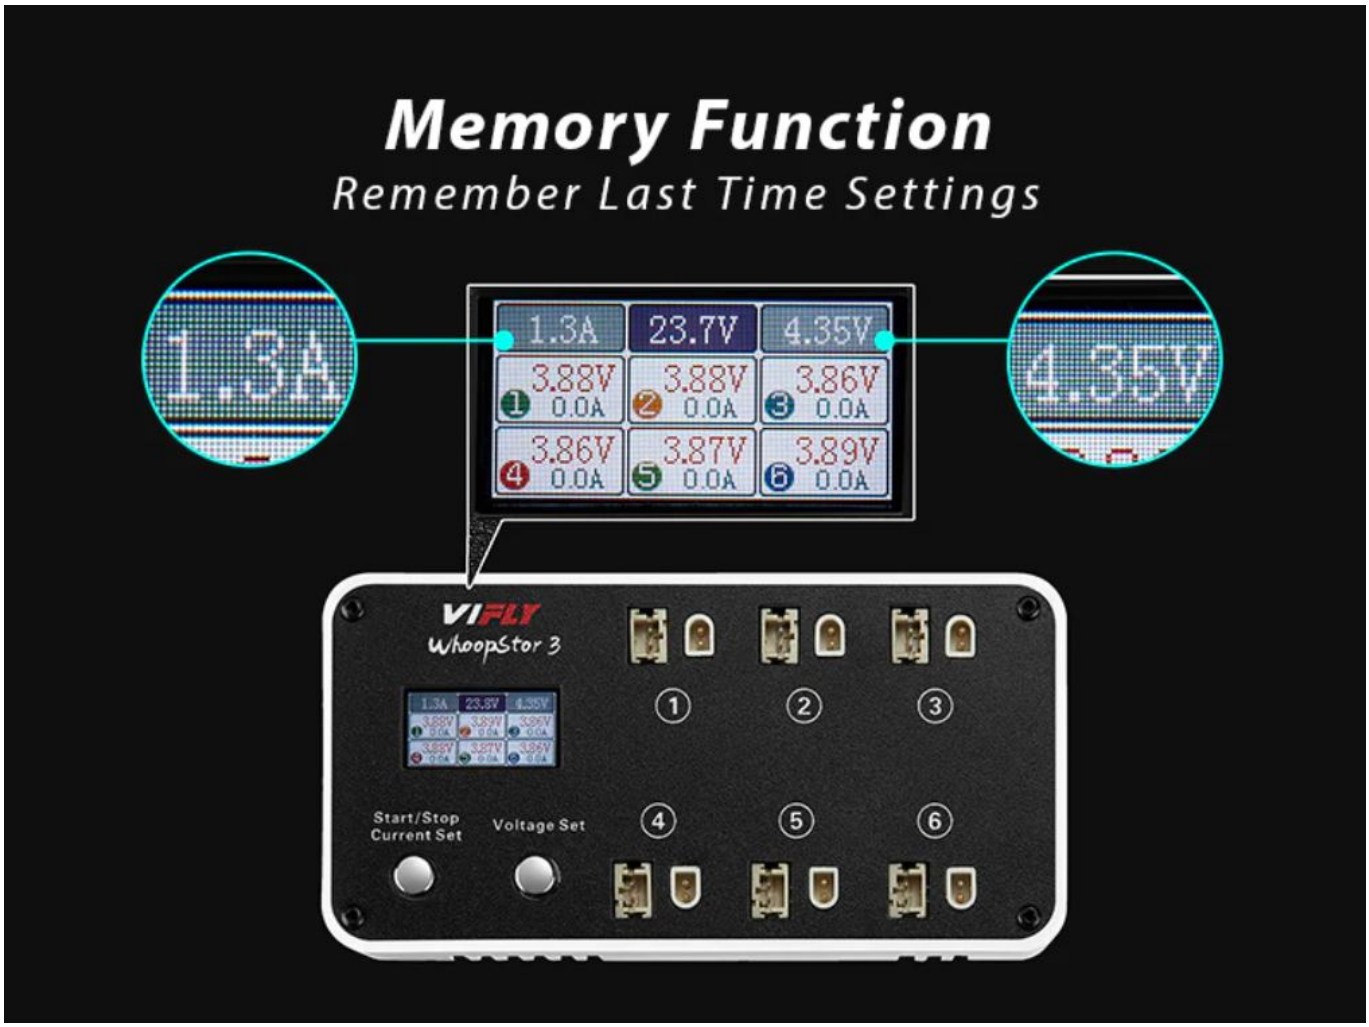

**Multiple Power Input**

VIFLY 1S LiPo charger supports Type-C, XT60 and DC power input. Type-C used PD and QC protocol that supports fast charge at 9V and 12V, but it not supports regular 5V USB charge.

**Strong Heat Dissipation Capability**

The fan and big heat sink would effectively dissipate the heat to prevent the unit from overheating. This greatly improves the efficiency and speed of the discharging.

**Memory Function**

VIFLY WhoopStor 3 added the memory feature of remembering last time settings, no need to set the charge current every time you turn it on.

## Produkt posiada dodatkowe opcje:

**Kolor**: Czerwony , Czarny
