Opis produktu

Lutownica polowa TS-100 TS-I

Zasilanie 12-24V, 65W

TS100 employs 304 stainless steel nested shell of Polycarbonate plastic. It is designed with safety circuit and anti-static structure, integrated with DC5525 12-24V port, dual-temperature sensors and accelerated sensors with STM32 chip. Under these functionalities, temperature can be controlled accurately, stably and easily adjusted from 100°C to 400°C, and the TS100 also has sleep mode and automatic over-heating warning.
