Matek ELRS CRSF to PWM-C konwerter

MATEKSYS CRSF to PWM Converter
CRSF-PWM-C

* Compatible with CRSF protocol receiver only
* No PWM outputs (Receiver & GPS)
* 10x PWM outputs (configurable)
* 2x UARTs (for Receiver and GPS)
* Telemetry ID: Rx/Bt, Curr, Capa, Bat%, GPS, GSpd, Hdg, Alt, Sats
* 36V Max. battery voltage sense (1K:10K voltage divider built-in)
* **Current sensor built-in (90A continuous /220A Peak), current scale = 150 by default**
* Vbat and Current sensor scale configurable
* Failsafe value auto set
* Firmware upgradeable
* Rated voltage: 4~9V @5V pad, 0~36V @BAT+
* **No 5V regulator built-in, Servos must be powered via 5V pad by external 5V source.**
* 26mm x 26mm, 2.8g
* Packing: 1x CRSF-PWM-C, 1x low ESR capacitor, Dupont 2.54 pins

Cena brutto	55,00 zł
Cena netto	44,72 zł
Dostępność	Aktualnie niedostępny
Czas wysyłki	1 - 3 dni
Producent	Matek Systems

Opis produktu

Matek ELRS CRSF to PWM-C konwerter

Specyfikacja:

- **Compatible with CRSF protocol receiver only**
- **Support any CRSF protocol receivers (including 433MHz, 868MHz, 915MHz, 2.4GHz)**
- 10x PWM outputs
- PWM frequency configurable (50Hz default, 100,160,330, 400Hz)
- 2x UARTs (for Receiver and GPS)
- Telemetry ID: Rx/Bt, Curr, Capa, Bat%, GPS, GSpd, Hdg, Alt, Sats
- 36V Max. battery voltage sense (1K:10K voltage divider built-in)
- **Current sensor built-in (90A continuous /220A Peak), current scale = 150 by default**
- Vbat and Current sensor scale configurable
- Failsafe value auto set
- Firmware upgradeable
- Rated voltage: 4~9V @5V pad, 0~36V @BAT+
- **No 5V regulator built-in, Servos must be powered via 5V pad by external 5V source.**
- 26mm x 26mm, 2.8g
- Packing: 1x CRSF-PWM-C, 1x low ESR capacitor, Dupont 2.54 pins
