Length:810mm
Material: EPP
WingArea:15.35 dm²
Package size:815*220*185mm
Recommend motor: 2004~2306
Recommend prop: 7042-2
Recommend battery: 4s 5000mAh/21700 1P4s
Servo: 4Pcs 9g servo
Item weight: 1.4kg
Package size: 84*25.2*22.5 cm

Easy for beginners, pre turned and pre-installed electronics.

Auto launch mode, return to home, circle mode
Need install the ATOMRC F405 NAVI flight controller, the RTH and RTH+FPV have intelligence flight mode.

Quick Release connector:
The quick release connector using soft connection, solved the disconnection from vibration or crash. Easy to install the wing and detach the wing.

Hatch Lock:
The screw and nuts are more durable and reliable than magnet, the hatch will never fall off in the air.

Carbon fiber reinforcement and plastic injection mount for tail, more rigid for high speed and landing

Precise Plastic injection parts:
The wing connector, motor mount, VTX mount, V tail base and flight light cover are using precise Plastic injection parts, more durable and light weight.

Swordfish manual
